Department: Computer Science & Engineering	**Academic Level:** Semester 5
Study Recorded: 4.2 hrs	**On-Time Completion Rate:** 20%

1. Subject Attendance Standing & Minimum Threshold Audit

Subject Name	Code	Conducted	Attended	Current %	Target	Standing	Action Needed
Discrete Mathematics & Gra	CS301	35	25	71.4%	75.0%	Recovery	Need 5 classes
Operating Systems & System	CS302	40	34	85.0%	75.0%	Safe	Can miss 5 classes
Database Management System	CS303	38	29	76.3%	75.0%	Warning	Can miss 0 classes
Computer Networks & Protoc	CS304	40	31	77.5%	75.0%	Warning	Can miss 1 classes
Design & Analysis of Algor	CS305	36	30	83.3%	75.0%	Safe	Can miss 4 classes

Overall Aggregate Attendance: 78.8% across 189 total lecture hours.

2. Assignment Compliance & Overdue Status

4. Recommended Academic Intervention & Action Plan

• **[CRITICAL ATTENDANCE]:** Prioritize attending Discrete Mathematics lectures without fail. You currently need 5 consecutive attendances to exit the red zone.

• **[IMMEDIATE OVERDUE]:** Submit the Operating Systems Kernel Lab Record immediately to avoid permanent grading penalty.

• **[STUDY PACING]:** Allocate at least 90 minutes tonight toward Database Query Indexing to ensure submission before the 23:59 deadline.

• **[EXAM READINESS]:** Begin reviewing Computer Networks Units 1 & 2 formula sheets and previous-year question papers stored in EduPulse Library.
